There was no doubt about the ultimate
advance, but because of the trifling uplift of the last few days the wise ones
believed that there should be a resting
spell. To help the market rest they took
profits and then sold some short and in
the afternoon they took their losses.

The recovery of the market began in
the last hour and was in full swing when
the day closed. Some stocks showed
movements of as much as two points
between low and high and several new
high records for the year were established. Of these records those in United
States Steel, Amalgamated, Anaconda and
Utah Copper attracted most attention.
American Can touched the high record
made a few days ago. The close was
at the best prices of the day.

Call Money 5 Per Cent.

Call Money 5 Per Cent.

Professional short selling was caused largely by the fact that call money touched 5 per cent. Most loans were made at about 42 per cent. The banks lost heavily to the subtreasury, the total for the week being about \$3,000,000. But the traders overlooked the fact that the country has produced this year the greatest crops ever known and that the greatest era of prosperity ever known is just beginning. Tight money rates mean that productive business is growing rapidly, for there is no speculation. Therefore, the higher money goes, the higher stocks will sell.

Increase of the Anaconda dividend to a \$3 a year hasis per share had no influence on Anaconda stock because it was known some weeks ago that the

Report Strike About Ended.

Utah Copper made its high record on a report that the strike at its mines in Bingham Canyon was about ended. The copper situation is exceedingly strong. Reading was active in the last hour following accumulation that has been going on for several days. The supreme court will meet in about two weeks and the coal cases may be decided at once, for they have been argued.

One of these cases involves the right of the Reading to own Jersey Central. Because Jersey Central holds 400 miles of railroad tracks in the state of Pennsylvania through a subsidiary company.

CHICAGO, Sept. 24 .- Misgivings that threshing in the northwest would be serlously delayed by stormy weather brought about a fair support for wheat today, but no enthusiasm. The market closed nervous at an advance of & to

ic net.

Snow, rain and cold in the spring crop belt made a troublesome outlook for the wheat bears. A sustaining influence was the fact that shipments of wheat and flour from Minneapolis and Duluth were larger than the receipts of wheat. On the other hand, quite free selling from commission houses could be noticed on all the hard spots in the market. These lands will be sold for cash at not less than fifty cents per acre, and any person can buy not more than 640 acres, or such smaller area as will, when added to the lands bought by him at the public sale held in 1910, not exceed 640 acres.

The lands will be offered in 320 acres. Or north and south half section tracts except in cases where homestead entrymen or the owners of lands patented under the homestad laws shall request the sale of smaller tracts adjacent to lands held by them. Bids may be made in person or by agent and the fact that a bidder has already used his rights under the public land laws will not prevent him from buying at this sale.
